

W. R. Glaze left Friday noon for a ten day trip to Broken Bow, Omaha, Hastings, Lincoln, and other Nebraska points on business. He will stop over with home folks at Broken Bow for a couple of days before going on east.

Dr. Geo. J. Hand was called to Lakeside last Friday.

1,408,500 Feet of Film Every Year

Did you ever stop to consider the amount of moving picture film used in an up-to-date picture show? Probably you never realized what it really amounts to: Harry Dubuque, the manager of the two Alliance picture shows, the Empress and the Crystal, uses a total of 1,408,500 feet of new film every year in these two shows. At the Empress the film is changed every night. This means 3,000 feet, or over half a mile, of film every day. At the Crystal where vaudeville is given, the film is changed every other day, making a total of 1,500 feet of new film for every day. The two shows combined, run 6,000 feet of film every night, or over a mile.

These two shows use a total of 1,408,500 feet of new film every year, which amounts to nearly 300 miles, as far from Alliance to Denver. Figure it out for yourself and then the next time you go to one of the picture shows imagine the amount of work and material it takes to give the pictures which glide so smoothly across the curtain and which show life in its many forms and where you see sights and scenes that you probably will never have the opportunity of gazing on in person, but which the moving picture camera shows to you for only ten or fifteen cents.

The G. B. B. club will meet at the home of Corrine Mollring on Saturday, June 14th, at 3 o'clock in the afternoon. New members are requested to be present.

The Best Medicine in the World.
"My little girl had dysentery very bad. I thought she would die. Chamberlain's Colic, Cholera and Diarrhoea Remedy cured her, and I can truthfully say that I think it is the best medicine in the world," writes Mrs. William Orvis, Clare, Mich. For sale by all dealers.—Advertisement.

Fire Department in Fine Shape

Full membership and applications waiting for vacancies

The Alliance Volunteer Fire Department is in fine shape in every way. The constitution only allows a total of 75 members and the department is full up now, with four applicants waiting for vacancies. The membership fee for joining the department is three dollars. The new member deposits fifty cents for his key to the club rooms and seventy-five cents for his fireman's badge.

Two interesting sections of the department by-laws are quoted herewith. Article X says, "The regular meeting shall be on the second and fourth Wednesdays of each month, at 8 p. m." Article XII says, "It shall be the duty of every fireman to report to the secretary at each fire for roll call."

Most Children Have Worms

Mothers think their children are suffering from indigestion, headache, nervousness, weakness, costiveness, when they are victims of that most common of all children's ailments—worms. Peevish, ill-tempered, fretful children, who toss and grind their teeth, with bad breath and colicky pains, have all the symptoms of having worms, and should be given Kickapoo Worm Killer, a pleasant candy lozenge, which expels worms, regulates the bowels, tones up the system, and makes children well and happy. Kickapoo Worm Killer is guaranteed. All druggists or by mail Price 25c. Kickapoo Indian Medicine Co., Philadelphia and Saint Louis. Advt 2163-26-4t.

Save \$1.00 to \$1.50

on each ton of Colorado Lump COAL

Coal prices begin going up June 1st and increase 25c per ton each month until winter. I have several carloads now on the road, ordered for the benefit of my customers, that I can sell during June at May prices.

Lay in your next winter's supply now

Take a Hint! Get Wise!

Suppose some one offered to give you \$10,000.00 in cash the day you completed an I. S. C. course. You would start to work right away, wouldn't you? But just think, the Course is really worth more than \$10,000.00 in cash, for \$10,000.00 in cash invested would bring you at 6 per cent interest only a net return of \$600 a year, while statistics made up from many thousands of cases show that the average technically-trained man earns \$950.00 a year more than the average man without Technical Training.

For full information concerning any position write the

International Correspondence Schools, Scranton, Pa., or call upon their representative, **B. L. Craig, at Alliance Hotel, from the 15th to 20th of each month**
